HB-5563

AN ACT CONCERNING VARIOUS CRIMINAL LAW PROPOSALS.

OFA Fiscal Note

State Impact:

Agency Affected	Fund-Effect	FY 27 \$	FY 28 \$
Correction, Dept.; Judicial Dept. (Probation)	GF - Potential Cost	Minimal	Minimal
Resources of the General Fund	GF - Potential Revenue Gain	Minimal	Minimal

Note: GF=General Fund

Municipal Impact: None

Explanation

The bill (1) expands the crime of organized retail theft by lengthening the time period within which a person can trigger the dollar threshold and (2) establishes two new larceny crimes as forms, resulting in a potential cost to the Department of Correction and the Judicial Department for incarceration or probation and a potential revenue gain to the General Fund from fines. On average, the marginal cost to the state for incarcerating an offender for the year is \$3,300¹ while the average marginal cost for supervision in the community is less than \$600² each year for adults and \$450 each year for juveniles.

¹ Inmate marginal cost is based on increased consumables (e.g., food, clothing, water, sewage, living supplies, etc.) This does not include a change in staffing costs or utility expenses because these expenses would only be realized if a unit or facility opened.

² Probation marginal cost is based on services provided by private providers and only includes costs that increase with each additional participant. This does not include a cost for additional supervision by a probation officer unless a new offense is anticipated to result in enough additional offenders to require additional probation officers.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to the number of offenses and fines collected.
