### ***Explanation***

The bill requires state agencies contracting for direct human services to pay providers within 45 days of service delivery. While the new parameters may shift the timing of payments to providers, they do not alter the overall value of the contracts. State agencies may incur administrative costs to the extent they are required to modify their payment structure and hire additional staff to satisfy the 45-day payment deadline, as outlined in the bill. For context, the starting salaries for related fiscal staff range from approximately \$65,000 to \$100,000 annually.

Senate "A" reduced the cost associated with the underlying bill by striking section 1 which eliminated all cost to the Office of Policy and Management and associated fringe benefit costs to the Office of the State Comptroller.
