SB-506

AN ACT CONCERNING CRIMINAL PENALTIES FOR
INTENTIONAL DAMAGE TO CRITICAL INFRASTRUCTURE.

OFA Fiscal Note

State Impact:

Agency Affected	Fund-Effect	FY 27 \$	FY 28 \$
Correction, Dept.; Judicial Dept. (Probation)	GF - Potential Cost	Minimal	Minimal
Resources of the General Fund	GF - Potential Revenue Gain	Minimal	Minimal

Note: GF=General Fund

Municipal Impact: None

Explanation

The bill expands the offenses of criminal mischief in the first and second degrees, resulting in a potential cost to the Department of Correction and the Judicial Department for incarceration or probation and a potential revenue gain to the General Fund from fines.¹ On average, the marginal cost to the state for incarcerating an offender for the year is \$3,300² while the average marginal cost for supervision in the community is less than \$600³ each year for adults and \$450 each year for juveniles.

¹ Between FY 22 and FY 25, there were a total of 10,818 offenses recorded and \$3,000 in fines collected under CGS §§ 53a-115 and 53a-116.

² Inmate marginal cost is based on increased consumables (e.g., food, clothing, water, sewage, living supplies, etc.) This does not include a change in staffing costs or utility expenses because these expenses would only be realized if a unit or facility opened.

³ Probation marginal cost is based on services provided by private providers and only includes costs that increase with each additional participant. This does not include a cost for additional supervision by a probation officer unless a new offense is anticipated to result in enough additional offenders to require additional probation officers.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to the number of offenses and fines collected.
