**General Wage Increase and Annual Increment** - The agreement includes a General Wage Increase (GWI) of 2.5% and an Annual Increment (AI) in FY 26, FY 27, and FY 28 for most employees. Certain

unions and job classifications receive other salary increases and either forgo an AI or have their FY 28 AI delayed until FY 29. Increases in costs between the year the increase begins, and the following year are due to the annualization of the increases provided. The estimate in FY 29 represents the cost of all GWIs and AIs in the contract once they are fully annualized. The contract includes a wage re-opener provision which allows for the negotiation of a GWI and AI in FY 29. In instances where the AI is delayed to FY 29, the union is ineligible for an AI as part of the wage re-opener.

**Other Salary & Wages Changes** – The agreement includes a variety of other changes that impact the salary & wages of employees beyond the GWI and AI indicated above. The table below provides a summary of these changes by category.

**Summary of Other Salary Changes by Policy**

Category	FY 26	FY 27	FY 28	FY 29

<b>Grand Total</b>	<b>4,009,031</b>	<b>13,574,393</b>	<b>34,044,935</b>	<b>43,831,949</b>

**Fringe Benefits** – Social Security, Medicare, and unemployment insurance fringe benefit costs will be incurred based on the salary related provisions in the contract. The current rate is 7.75% of salary to account for these three benefits.

**Fringe Policy Changes** – There are several modifications to the current health care and pension agreement reducing costs to the state by \$21.5 million beginning in FY 27 and \$31.2 million annually until FY 29. The agreement incentivizes employees to waive health insurance coverage to reduce the number of covered employees under the state plans resulting in savings of \$16.4 million in FY 27 and \$26 million in

both FY 28 and FY 29. There are additional modifications intended to reduce administrative costs and overall health spend.

**Retirement** - The agreement covers both hazardous and nonhazardous members. The state’s contribution to the state employee retirement system on behalf of active employees for future benefits is 12.05% for hazardous members and 3.34% for nonhazardous, subject to change based on the annual actuarial valuation. The identified wage provisions also increase the costs to the pension plans associated with increased liability costs which will not be fully recognized in the state's actuarially determined employer contribution (ADEC) until FY 30.

Additionally, the state pays defined contribution and Other Post Employment Benefits (OPEB) match incurring at a rate of 1.80% of salary for hazardous and 1.78% for nonhazardous members.

**Retroactive** - Employees in the bargaining units covered under the agreement who retire after July 1, 2025, are eligible to receive wage increases retroactive to July 1, 2025, to the extent they were active employees at that time. The fiscal impact is recognized in the normal cost calculation associated with salary increases. Salary increases require a recalculation of such retirees’ pension payments which are paid out of the state employees retirement fund.

**Non-Salary Adjustments** - The agreement includes a variety of changes that do not impact the salary & wages of employees. The table below provides a summary of these changes by category.
