Explanation

The amendment strikes the underlying bill and the associated fiscal impact.

The amendment results in a potential cost of at least \$89,900 in FY 27 and \$53,200 in FY 28 and each year thereafter to the Department of Administrative Services (DAS) by allowing the agency to administer a pilot test bed program. The costs to DAS include 1) one-time costs of \$50,000 in FY 27 to develop an online portal and 2) a 0.5 full-time equivalent staff at an annualized cost of \$53,200 (\$37,500 in salary and

¹The fringe benefit costs for most state employees are budgeted centrally in accounts administered by the Comptroller. The estimated active employee fringe benefit cost associated with most personnel changes is 41.82% of payroll in FY 27.

\$15,700 in fringe benefits) to administer the program.

There is also a potential cost to DAS to the extent that expert third party consultation is needed to fully evaluate an applicant's proposed test project. The actual cost will depend upon the type of project in the application. It is anticipated DAS will consult with experts in state agencies, such as Connecticut Innovations, when applicable, at no cost to the state.

The amendment requires any costs associated with the acquisition and use of a test project to be paid by the applicant. Any cost to implement a test project will therefore be incurred by the applicant and not the state.
