Testimony:

I find the Ombudsman to be a trustworthy man. He can bring hope to our inmates again. His findings are shocking and every single person in this state and around the country should be in a uproar over this. The body scanners are key to the problem. They are ways for our homos in corrections to touch children. They are the ones who should be in prison. My brother is a homo in South Carolina, so I have every right to say the word and he approves. I want to see our prisoners be reformed but they can't be if body scanners are there. Get rid of them immediately.
