Testimony:

Chair of Correction Board chairman,

I understand this is a public hearing and I have some thoughts for you. My first idea is that you allow our correction facilities teach firearm safety classes. A large reason why a young man may be in the prison in the first place is that he did not know how to handle a gun. If you were to start classes with the National Rifle Association, you could have an army of people ready to become law enforcement officers after they are reformed. I see these inmates helping ICE on raids to stop the illegals from entering our country at the border. Second, you make the inmates learn how to drive trucks that way if they are legal citizens you can have a group of prepared Amazon drivers. No need for delays in my packages with more people in the force. Truck drivers are the unsung heroes of this country! I will always stand with and by them like I do our police and firemen.

Thank you for hearing my ideas,
Josh Long
