Testimony:

Hi my name is Alain Leconet inmate number 341059 I been incarnated since I was 21 years old and now I'm 38 years old, I'm being healed at Cheshire C.I I am serving a 90 years sentence and my experience and time in prison has been a war every day, I have been a victim buy misconduct behavior by DOC officers for 17 years, I Done had officers lied on incident reports were it's always been my word vs the Department officers word's! officers had stolen my property in the pass, officers had lied and said I threaten them just to put me in bad living conditions against my will and guest what? the Department of corrections been getting away with it from before I was born! and this been happening because wrong leadership always allowed this type of behavior to happen, see the Department always new how to cover their tracks because they new the taxpayer's would never see how they money is really being spent! and Do you know when a officer that spend their Corrie's living to mentally hurt a inmate by effecting how a inmate sleep at night or the future of the good hard work a inmate Done put in just for a DOC officer to wetness the positive and just heat that a inmate is doing so good, see I'm that inmate that they don't like when I'm doing good and they do so much to bring me Down! see if it wasn't for Ms Nancy Peters being my voice or our voice I wouldn't no were I would be mentally?? and I love her as a Angel that watching me from the out side of Cheshire CI, see the Department of Cheshire always ran their own rules because of the Union's and others prison's in this state never held their staff accountable for the public to know about it but only if it's something that's easy for them to hold from the public because they would lose fundings! see the ombudsmen Mr ward is the best thing that ever happen to the Department for corrections and it's funny to say this because I know not many people that feel like this meaning the DOC officers because now us inmates are having someone to help us with our voice and our issues that really never been hard or seen and I thank Ms Nancy Peters and I thank Mr ward and his team and for the record not every correctional officer's is bad officer's, it's the ones that's not saying something when they see and herring something that's not right so now it make them officers bad officer's! I my self Leconte work hard to be in the path that I'm at I'm more positive and understanding when it come to people and now I understand life more clearly now remember I was just 21 years old when I came in with mental health issues, and i was never perfect and I never claim to be but for all the things I been thru I for give the Department of corrections I hope one day we all could come together and just learn how to respect each other and work on making all prison's safe from negative behavior's from both side's, I just want peace and to work hard to show the community that I'm asking for one more chance in the community to show what I could bring and show to the people in our state and that is the (MESSAGE) for the youths and the Youths could be your child or your best friend child or any child that look or seems like they are going the wrong path in our state this is my Dreams and what I want to Do for my mother because I know I put her in so much pain coming up as a child and I love you mom and I hope you could see who I am today and that's a voice for the inmates that could not tell their story's because their thought of mind is not the same as every body else yes they have been some change in the Department but it's still long way to go and the ombudsmen Mr ward and his team are on it and me and the inmates population thank him for his good work peace and love from Alain Leconte#341059 thank you for reading my MESSAGE..
