Testimony:

Please someone read

Please if anyone is reading try to find out how this is okay. They are telling us at Garner that we will be locked down Friday AND Saturday so they can have parties for an officer who died over two months ago... Officer Tofuto.

We have already had FIVE DAYS of lockdown for this officer between them mourning his death and the funeral.

Someone needs to speak up for mental health inmates. We are so marginalized... they would not DARE do this in any other prison in the state. Lockdown for parties!

The Protect Act GUARANTEES us FIVE HOURS out of cell time each day.

Locking us down for PLANNED parties is an egregious violation of state law and our rights.

This needs to be a news story.
