Testimony:

I am a inmate that's incarcerated inside MacDougall CI . I work in side of the mess hall where there are a lot a politics and racial basis going on inside the kitchen with the south Americans they are being treated better than the African Americans and the White Americans . We work just as hard if not harder but we still being treated unfairly. They let the South Americans cook chicken only for the c\ o ' s and Their people while everyone else have to eat what is being served to population .I don't think that is being fair number 1 we work inside the kitchen also why can't we eat chicken when the sever slop and number 2 how come the c/o' s could eat chicken three times a week and they get money in their checks to buy food. Feel free to come and visit MacDougall's kitchen and you will see exactly what i ma talking about I want to remain unknown because I don't want any push back from the staff or be a target can you keep this confidential please.

Thank you kindly.
