NA

Testimony:

I would love to document all of the "true" life experiences I have lived through and witnessed in my 39 years of incarceration and even some that some might find hard to believe. I am 72 years old now and have now lived in the infirmary for the past 3 1/2 years. I'm even now trying to talk to the Ombudsman about the problems I am having getting the help I not only need now , but have needed and have been trying to get for at least the last 2 years !! So YES, I definitely like to share my life experiences from the last 39 years.
