Testimony:

Dear Corrections Advisory Committee,

I want to see change and turnover in Connecticut's prisons for the corrections officers. We still do not know how many are involved in the pedophile rings that I asked you to look into last time this hearing occurred. We must as a state do everything to stop human trafficking and abuse. Please do a study or something on the youngsters who are in Connecticut jails and if they have had inappropriate contact with the corrections officers. And get rid of the body scanners. Those violate our children's privacy and safety all the time.

Sincerely,
Donna Farland
