Testimony:

My name is Troy Kelley and I'm currently at Cybulski C.I.. My issue is with the medical here. I was in a car accident on 12/29/24. I broke my ribs and my hip on the left side. Since I been here I've been denied a medical mattress, resistance bands and I've been asking for a M.R.I. because my left knee has been in pain everyday since I've been here April 17th 2026. I've wrote many times and each time they see me (at sick call) its always the same u are on the list. I just put in a medical grievance and I'm waiting for a response. The lady doctor here is very disrespectful she speaks down to u. She did to me. I really need to get a M.R.I..The medical department here needs help I know we are in jail however we are still human... Thanks for listening.
