Hi Everyone ,

My Name is Ulises Collazo #271343

I have being in Connecticut Prison's over 20 years and I have seen so Manny things that go on behind this Wall's and they get away with it because there is no structure at all . A lot of these correctional officer's ask of you to fallow the rule's but they be the ones breaking the rule's bringing they cellphone's into the facility and they be slipping at the bubble . A few months a go at Corrigan CC in unit H - Pod they put the unit on Lock Down and they come in and they found cellphones and so much drugs and the only way all of that is coming in is the officer's are the ones bringing all that in here . in this facility is impossible to bring anything thru the visiting room . now after so many years eating this nasty food they are changing a few things on 7-26-2026. Now about recreation , this place is on Lock Down so much is not event funny . they always justify the Lock Downs bay saying they are doing training . Yesterday they give us 1 hour for rec in the evening and they say they are doing training and today we was also Lock down do to more training and we supposedly by law to get 5 hours out the cell time and in this facility that is not happening at all . I don't care if you use my name at all . also I am is F - unit and on this unit you can event see outside the windows because the windows are sealed to the point you can see out side . that is very stressful and it can have an IMPAC on your mental health. thank you .
