

2025 Bill Tracking Report

By: Kristen Miller, Senior Legislative Attorney
Sarah Tata, Legislative Analyst II
September 3, 2025 | 2025-R-0141

Notice to Readers

This report identifies bills considered during the General Assembly's 2025 regular legislative session whose content or concepts were incorporated into other legislation that the legislature passed under different bill numbers. It lists bills that were, at a minimum, fully drafted and had a public hearing but whose substance, in part or in whole, was enacted as a public act through separate legislation. The report includes those acts that (1) borrowed specific content from another bill or (2) addressed similar concepts using language that did not exactly match that of the other bill. It excludes vetoed acts.

The content or concepts of one bill are generally carried forward into another by (1) a committee amending or substituting the language of an existing bill or creating a new bill using language from a previous one and then favorably reporting it, (2) the House or Senate adopting an amendment containing language from a bill that otherwise failed to move forward, or (3) an emergency certified bill (such as the budget implementer) incorporating language from other legislation.

During this session, the content or concepts originating in at least 201 bills were incorporated into other legislation that was enacted in 51 public acts.

Table 1 organizes the bills by the committee of origin, lists them in numerical order based on the bill number, identifies the relevant public acts, and briefly summarizes the incorporated content in the acts. Table 2 lists all the bills in numerical order. Unless otherwise noted, the version of the bill referenced in column one of both tables is the one most recently acted upon by the legislature. In many instances, the bills and acts are broken out by specific section numbers. Consequently, some bills have multiple entries.
