To whom it may concern,

I am writing this letter in response to the upcoming school mask mandate expiration. I am **STRONGLY OPPOSED** to the extension of this mandate. It is not proven to be effective but has proven to be a detriment to our children's education and psyche. The polls have spoken to this as well with majority of the residents voting to end it. Please accept this letter as a voting constituent who voices his opinion as NO for this mandate. Thank you.

V/r
