Today's Discussion

- Welcome
- Important Next Step
- Looking Ahead

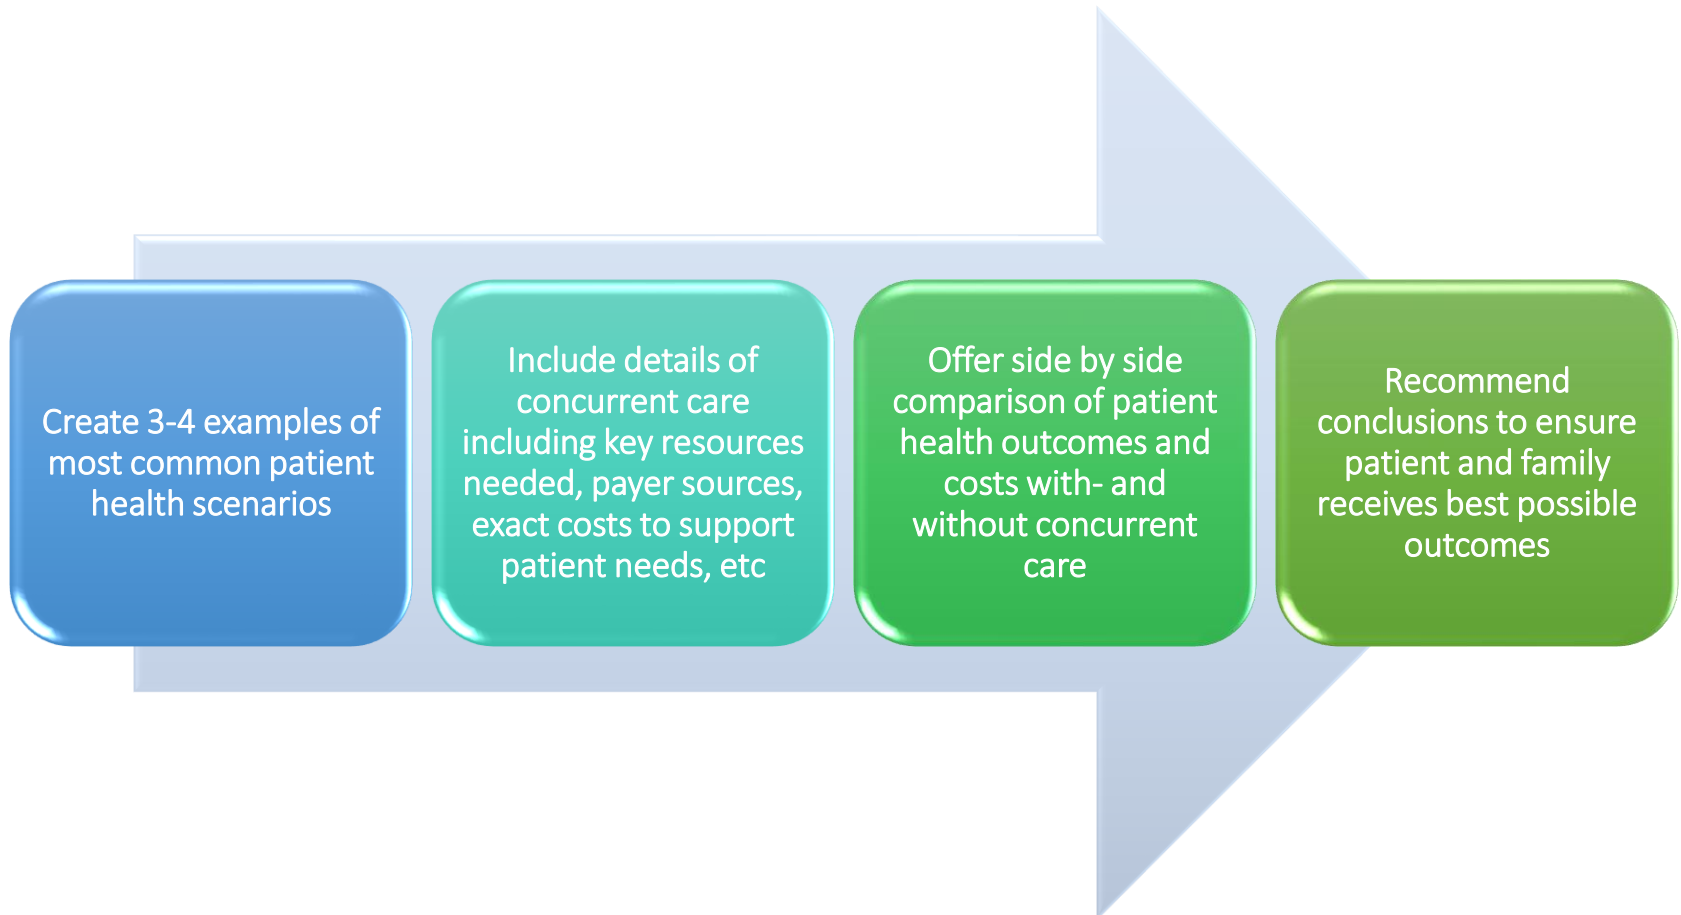

CHAMP Care: Scenario Creation

Create examples of patient care needs, costs, support – to tell the story

One of our most urgent challenges - showing the importance of concurrent care

CHAMP Care: Reminder of Tasks Ahead

List of key benchmarks/elements needed for Feb Report to Assembly

Our deliverables for the next few months to prove the need will require:

Program definition:

A description for what this program will look like, how it will be structured, what resources will be needed to move this forward, recommendations for a phased launch

Education & awareness:

What we'll communicate, who we need to impact, how we'll deliver this

Data gathering:

Discussions with all sources to confirm scope of need, details on costs/metrics that will flow into the program description to prove the need

Resource assessment:

What people and technologies will be needed to move ahead, what will it cost to engage these resources

Scenario development:

Create examples of pediatric situations that include costs, complexity of need, family testimonials to prove the need
