Subject: CCDF Sewerage Working Group Recommendations

Hi Jim and Dave,

Here's the link to the [CCDF Sewerage Subcommittee Draft Recommendations](#).

It's labeled as a draft, but all of the recommendations were included in the final CCDF report. The final version is presented in spreadsheet format, so this draft is a much easier read.

All of the subcommittee presentations are also posted on the [CCDF CGA webpage](#). It might be worth asking the agencies what has changed since their 2022 updates on subsurface sewage. I think it's important that we keep pressure on them to collaborate by closing gaps, aligning regulatory processes, and moving toward a system that works better for everyone and produces healthier environmental outcomes.

As I mentioned, Jim, it would be valuable for all members of the Working Group to be aware of this previous effort.

Warm Regards,

Alicea
